CS615 UID - Project Phase 4

Group name: Pixels

Group members:

- Sammed Jain Dharmapal Prakash
- Sricharan Mohan Kumar
- Sukruth Kotturu

Project Brief:
Our website is designed to connect individuals and organizations with volunteer opportunities. It simplifies the process of discovering, creating, and managing volunteering events, fostering a sense of community and personal growth. Users can create profiles, find suitable opportunities, and post their own events.

Background Information:
Our website aims to address the challenge of finding volunteer opportunities that align with users' interests, skills, and schedules.
Users include both those seeking volunteer opportunities and those looking to provide opportunities.
Key actions involve creating a user profile, discovering volunteering opportunities, registering for events, and posting new opportunities.

Scenario 1: Create an account and login.

Preliminary drafts:

PROFILE EDITED
SUCCESSFULLY !

OK

Observations: In response to user feedback, we've extended the presence of the home button to all pages, allowing users the convenience of navigating to the home page from any location. Furthermore, we've expanded the editing options within the user profile details. Initially, only age and location attributes were editable, but based on user input, we've included the ability to edit username, first name, last name, and email as well. To enhance the user experience, we've introduced a cancel button within the editing page, enabling users to abort the action if needed. Additionally, we've incorporated an 'X' button in the top-right corner of the success message popup for profile editing, as per user suggestions.

Volunteer Event
Booked Successfully !

Observations: Just like above we have added the home button to all pages. In the event registration page, we've incorporated a radio button to allow users to select the preferred time slots for the event. Furthermore, we've introduced a cancel button on this page in alignment with user suggestions. In the subsequent page, where a confirmation popup appears for booking, we've included an 'X' button. Finally, on the following page where a success message pops up, we've integrated an 'OK' button in the popup, aligning with user input.

Observations: In line with the previous updates, we've implemented the expansion of the home button to all pages. Notably, as per the user suggestions we have now added a dropdown menu for selecting time slots and specifying age ranges. Unlike the previous setup, the age section now accommodates input for age ranges. Additionally, we've introduced both a cancel button and an 'X' button on this page. To enhance user clarity, we've incorporated '*' markers for mandatory fields. In the success popup, we've added an 'X' button as per user feedback.

Final drafts:
